

E6-CK Glass Fiber

Best Corrosion Resistance Solution for High-Performance Composite Material

Boron-Free Fluorine-Free Glass Fiber

E6-CR GLASS FIBER --- Best Corrosion Resistance

E6-CR REINFORCEMENTS --- Excellent Environment Durability

ENVIRONMENTAL PROTECTION --- Become a Model of Environmental Protection

CUSTOMER AND TECHNICAL SUPPORT --- We are your partner

Our products are used in many areas of infrastructure

1. High Performance composite materials

Our products are used in many areas of infrastructure

E6-CR REINFORCEMENTS

Excellent Environment Durability

In the future, end-use composite products will operate in even harsher environments and the end-users will expect enhanced durability. Compared with E6[®] glass fiber, **E6-CR enhanced glass fiber** reinforced composite materials offer better corrosion resistance and temperature endurance, making composite parts more reliable and cost effective.

Superior Mechanical Properties

Test Sample	Property	Standard	E	E6 [®]	E6-CR
Tensile property of impregnated	Tensile strength (MPa)	ASTM D2343	1900~2000	2500~2700	2500~2700

ENVIRONMENTAL PROTECTION

Become a Model for Clean Production

China Jushi is committed to improving our environmental footprint. We have invested heavily in the most modern technologies available to reduce pollutant emissions into our environment. Improved oxygen firing technology reduced total waste gas emissions from the furnace by 80% and the nitrogen oxide emissions by over 90%. State of the art glass recycling technology ensures zero discharge of process waste glass fiber. Modern waste purification technology enables zero discharge of industrial waste water from our production process. E6-GR glass fiber is produced by more scientific production technology and process which not only improve the product performances, but also control air pollutants at source. The development of E6-GR glass fiber is consistent with our constant commitment to social responsibility and sustainability. It is not only how we achieved the goal of improving our glass fiber products, but we also have improved our environmental footprint at the same time.

CUSTOMER AND TECHNICAL SUPPORT ORGANIZATION

Offer Best Technical Support

China Jushi possesses world class core technologies and advanced testing and analysis capabilities for glass, organic chemistry, fiberglass and composites. We have established a global network of marketing and technical support.
